PURCHASING & OTHER INTEGRATIONS***

# PURCHASING

Effortlessly integrate your own B2B accounts with specific vendors and place orders for products seamlessly within the platform.

Less manual entry means less human error.

Streamline your purchasing processes and complete orders with just one click.

The screenshot shows a B2B purchasing interface. On the left is a navigation sidebar with items like 'Management', 'View', 'COMMUNICATION', 'Messages', 'Customers', 'History', 'TS', 'Summary', 'ig', 'ort', 'ort (Legacy)', and 'Report'. The main area displays a table of items from SanMar. Each row includes a checkbox, the vendor name 'SanMar', a product code (PC78 or PC78H), a description of the item, color, size, and quantity. At the bottom of the table are three buttons: 'CHECK AVAILABILITY', 'ORDER DIGITALLY', and 'MORE ACTIONS', along with a 'Show by p' checkbox.
